# Hire Steve Robinson for **PRIVATE LESSONS**

## See What a Difference They Make!

“My son was having a difficult time concentrating in the karate class setting. Steve recommended private lessons and wow what a difference they have made! The one-on-one attention has provided my son with the in-depth instruction that he needed. He’s made vast improvements in his technique, form and focus and I couldn’t be happier with these weekly sessions.”

**STEVE ROBINSON**

“Private lessons with Steve have perfected the small things in my martial arts progress, including: timing, hand position, balance and footwork. Working individually with Steve allows him to focus on my techniques and make important small adjustments that improve my overall mastery of the art.

Steve is also able to adapt to my changing schedule. I have a specific meeting time with him each week. However, Steve has always been understanding of my often changing schedule and periodic travel requirements. It is not unusual for me to have to change our set meeting time once a month.”

— Jay Rogers, Manager-Dealer & Sales Support Service  
Purina Animal Nutrition LLC

“We went to Robinson’s for private karate lessons because our 8 year old son was dealing with ADHD—an inability to focus and low self confidence. Steve Robinson has been brilliant with our son and his teaching style perfectly combines and balances patience with sternness. never focusing on the negative and only on the positive, Mr. Robinson really understands how to motivate his young students. The end result has been remarkable. Our son has made huge strides in his ability to focus on the task at hand. He’s happier in general and loves karate.”

— Jason Franz, CRNA, Major, United States Army

“Steve is the best. In private lessons he gives me alternative approaches, taking as much time as I need to figure out how to make a move work best for me.”
